**PART I. SF 1449 Continuation:**

**SF1449 BLOCKS 19 - 24:** The Contractor shall provide all resources (except as may be expressly stated in the contract as furnished by the Government) necessary to supply 2-Inch Liquid Oxygen (LOX) Angle Globe Valves as required by the Contract Terms and Conditions, Statement of Work, and Valve Data Sheet. The Government anticipates the award of a firm-fixed priced contract resulting from this solicitation.

**Statement of Work for 2-Inch Angle LOX Globe Valve Procurement**

**1.0 Background:** While performing verification and validation testing of a chemical steam generator (CSG) unit at the Stennis Space Center, MS (SSC) E2 test facility, the performance of the 2-Inch angle-globe valves as supplied with the unit have not been able to withstand the operating conditions encountered in both the ambient and cryogenic propellant systems. Pieces of seat material have been liberated from the seat and valve stem possibly allowing propellants to leak into the combustion chambers after very minimal valve operational cycles.

**2.0 Scope:** Provide Liquid Oxygen (LOX) valves per the attached valve data sheet for use on Chemical Steam Generators at Stennis Space Center.

**3.0 Deliverables:** 2-Inch angle globe valves and actuators with limit switches per the attached valve data sheet for the following propellant systems:

- a) 27 ea. - Liquid oxygen (LOX) and 1 set of LOX certified softgoods for rebuilding.
- b) Valves shall be cleaned to 750A per RPTSTD-8070-0001, Surface Cleanliness Standard of Fluid Systems for Rocket Engine Test Facilities.\*
- c) The valves will be functioning in a Class I, Div. 2, Group B environment as defined by the National Electric Code, Article 500.
- d) Delivery schedule shall be in accordance with FAR 52.211-9 as specified herein.

\* Questions regarding this standard should be submitted in accordance with the solicitation provision "Addenda to FAR 52.212-1, Instructions Regarding Submission of Offer," paragraph I.

### **52.212-1 INSTRUCTIONS TO OFFERORS - COMMERCIAL ITEMS (FEB 2012)**

The following **ADDENDA TO FAR 52.212-1** are incorporated:

#### **INSTRUCTIONS REGARDING SUBMISSION OF OFFER:**

The following information is to be provided with offeror's proposal and must be submitted no later than the date and time specified on page 1 in Block 8 of the SF 1449. The information requested must be provided for the prime contractor, and, if applicable, significant subcontractors.

\*\*\*Failure to provide any item requested below may render offeror's proposal NON-RESPONSIVE and thereby ineligible for award.\*\*\*

**(A) List of Required Documents** - The following is a list of required documents provided for the Offeror's convenience. There may be other documents, either required or necessary for effective evaluation, which do not appear on this list. It is the offeror's responsibility to ensure that the proposal submitted is complete in every respect and not rely solely on this list to prepare its proposal.

1. Completed SF 1449
2. Technical Quality Section of Proposal
3. Delivery Schedule Section of Proposal
4. Past Performance Section of Proposal
5. Small Business Subcontracting Plan Section of Proposal
6. Price Section of Proposal to include .xls breakout(s)
7. Offeror Representations and Certifications (Part V); IAW 52.212-3, Offerors are required to electronically provide Representation and Certifications via the BPN website at <http://orca.bpn.gov> prior to submitting offer or complete the representation and certifications in this solicitation and submit as part of its proposal package
8. Documentation of compliance with veterans reporting requirements
9. Acknowledgment of all amendments, if applicable

#### **(B) TECHNICAL QUALITY -**

1. Technical Quality information shall include submission of the salient characteristics of the deliverable proposed to demonstrate the degree to which it can satisfy the government's requirement.
2. Offerors are advised that existing product literature may be submitted in lieu of unique technical proposals so long as it conforms to the requirements of the solicitation and contains adequate detail for purposes of evaluation. Information provided must clearly demonstrate the capability of the offeror's proposed product to perform within the environment in which these valves will be required to operate. In particular, documentation provided must demonstrate that the offered product will be able to retain its seat during turbulent valve operation. Lifecycle cost and maintenance requirements are also a consideration of this requirement and, as such, information provided should include steps required for both preventive and corrective maintenance (e.g. to replace seat or correct a leak).

3. Information provided should be specific, detailed, and complete enough to clearly and fully demonstrate an understanding of the requirements and any risks associated with the objectives of this procurement. It is inadequate to simply state that offeror understands and will comply with the requirements, or to paraphrase the requirements such as: “standard procedures will be employed to...” and “well-known techniques will be used for...”. The information provided shall comprehensively explain how offeror proposes to comply with the applicable requirements.

**(C) DELIVERY SCHEDULE -**

1. Delivery Schedule information shall include documentation that clearly demonstrates the offeror’s ability to meet the Government’s desired/required delivery schedule.
2. Offerors are advised that proposals offering to exceed the desired/required delivery schedule of this solicitation AND demonstrating the ability to do so will be given a higher rating under this evaluation factor.

**(D) PAST PERFORMANCE -**

1. At a minimum, Past Performance Information (PPI) provided shall include the name(s) and contact information for three (3) of the offeror’s most recent (within three years from the offer due date listed on page 1 in Block 8 of the SF1449) and relevant (as outlined in the Federal Acquisition Regulation) references (whether federal, state, or local government or private industry) for the prime contractor, and, if applicable, significant subcontractors. PPI provided should clearly demonstrate the proposed valves’ performance in a comparable operating environment. Failure to provide adequate contact information shall result in the reference being given a “neutral” rating.

**(E) SMALL BUSINESS UTILIZATION -**

1. All Offerors, except small businesses, must complete the portion of the instructions under Small Business Subcontracting specific to the Small Business Subcontracting Plan. Small businesses are not required to submit Small Business Subcontracting Plans; however, small businesses are required to indicate the amount of effort proposed to be done by a small business either at the prime level or at the first tier subcontract level (*See Para 4, Commitment to Small Business Program below*).

2. All Offerors are also required to respond to the Commitment to the Small Business Program.

3. Small Business Subcontracting Plan (the Plan) Required by the FAR:

(a) This solicitation contains FAR clause 52.219-9, —Small Business Subcontracting Plan with Alternate II. The Plan described and required by the clause, including the associated subcontracting percentage goals and subcontracting dollars, shall be submitted with your proposal. A commercial plan is the preferred type of subcontracting plan for contractors furnishing commercial items (*see FAR 52.219-9*).

(b) The Contracting Officer’s assessment of appropriate subcontracting goals for this acquisition, expressed as a percent of total contract value as follows:

<b>Category</b>	<b>Goal</b>
Small Businesses (SB)	10 %
Women Owned Small Business Concerns (WOSB)	N/A
Service-Disabled Veteran-Owned Small Business Concerns (SDVOSB)	N/A

<b>Category</b>	<b>Goal</b>
Small Disadvantaged Business Concerns (SDB)	N/A
Veteran Owned Small Business Concerns (VOSB)	N/A
HUBZone Small Business Concerns (HUBZone)	N/A

(c) Offerors are encouraged to propose goals that are equivalent to or greater than those recommended by the Contracting Officer. However, Offerors must perform an independent assessment of the small business subcontracting opportunities.

(d) The Plan submitted with the proposal shall be incorporated in Attachment 3 in the resulting contract. The requirements in the Plan must flow down to first tier large business subcontracts expected to exceed \$650,000 or \$1,500,000 for construction of a public facility. Although these first tier large business subcontractors are encouraged to meet or exceed the stated goals, it is recognized that the subcontracting opportunities available to these subcontractors may differ from those suggested in the solicitation based upon the nature of their respective performance requirements.

(e) Offerors are advised that a proposal will not be rejected solely because the submitted Plan does not meet the NASA recommended goals that are expressed above in terms of percent of total contract value. NASA will consider the amount of work being retained for performance by the prime contractor in-house when determining whether a subcontracting plan is acceptable. Offerors shall discuss the rationale for any goal proposed that is less than the Contracting Officer's recommended goal in any category. In addition, the Offeror shall describe the efforts made to establish a goal for that category and what ongoing efforts, if any, the Offeror plans during performance to increase participation in that category.

(f) In addition to submitting a Small Business Subcontracting Plan (Large Businesses only) in accordance with FAR clause 52.219-9, Alternate II, Offerors shall complete Exhibit A, Small Business Subcontracting Plan Goals, which provides a breakdown of the Offeror's proposed goals, by small business category, expressed in terms of both a percent of total contract value and a percent of total planned subcontracts. Offerors shall modify the exhibit to show the proposed subcontracting goals for the basic contract requirement and each option separately.

#### EXAMPLE OF A PROPERLY COMPLETED SMALL BUSINESS SUBCONTRACTING GOALS

Listed below is an example of Subcontracting Goals, expressed in both contract value and subcontract value, for a contract proposed at \$100M with estimated subcontracts of \$50M:

	<i>Column A</i>	<i>Column B</i>	<i>Column C</i>
<b>Business Category</b>	<b>Goal as Percent of Contract Value</b>	<b>Dollar Value to be subcontracted per Category</b>	<b>Goal as Percent of Subcontracting Value</b>
Small Business Concerns	25 percent	\$25,000,000	50 percent
Large Business Concerns	n/a	\$25,000,000	50 percent
Total Dollars to be Subcontracted	n/a	\$50,000,000	100 percent
<i>The following small business subcategories do not necessarily add up to the percentage and dollar amount in the "Small Business Concerns" category above, since some small businesses do not fall into any of the subcategories below, while others will fall into more than one subcategory below.</i>			
<b>Subcategories of Small Business Concerns</b>			
Women Owned Small Business Concerns	9 percent	\$9,000,000	18 percent
Small Disadvantaged Business Concerns	5.5 percent	\$5,500,000	11 percent
Veteran Owned Small Business Concerns	2.5 percent	\$2,500,000	5 percent
Service-Disabled Veteran-Owned Small Business Concerns	1.5 percent	\$1,500,000	3 percent
HUBZone Small Business Concerns	1.5 percent	\$1,500,000	3 percent
Historically Black Colleges and Universities/Minority Institutions	1.5 percent	\$1,500,000	3 percent

To complete Column A, divide the dollar amount in Column B by the **total offered price of the proposal** (that is, total contract value). In the example above, Column A for Veteran Owned Business Concerns = \$2,500,000 divided by \$100,000,000, or 2.5 percent.

To complete column C, divide the corresponding amount in Column B by the amount in the “Total Dollars to be Subcontracted” cell in Column B. In the example above, Column C for Women-Owned Small Businesses = \$9,000,000 divided by \$50,000,000, or 18 percent.

Note: the “Total Dollars to be Subcontracted” amount in Column C will always be that category divided by itself (100percent if any dollars are subcontracted).

### Exhibit A, SMALL BUSINESS SUBCONTRACTING PLAN GOALS

**This appendix shall be completed by all offerors, large and small, and submitted as part of the proposal, except when a commercial plan is submitted. (Large Businesses may include this Appendix in their Small Business Subcontracting Plans.)**

	<i>Column A</i>	<i>Column B</i>	<i>Column C</i>
<b>Business Category</b>	<b>Goal as Percent of Contract Value</b>	<b>Dollar Value to be subcontracted per Category</b>	<b>Goal as Percent of Subcontracting Value</b>
Small Business Concerns			
Large Business Concerns			
Total Dollars to be Subcontracted			
<b>Subcategories of Small Business Concerns</b> (Note: <i>The small business subcategories may not necessarily add up to the percentage and dollar amount in the “Small Business Concerns” category since some small businesses do not fall into any of the subcategories, while others will fall into more than one subcategory.</i> )			
Women Owned Small Business Concerns			
Small Disadvantaged Business Concerns			
Veteran Owned Small Business Concerns			
Service-Disabled Veteran-Owned Small Business Concerns			
HUBZone Small Business Concerns			
Historically Black Colleges and Universities/Minority Institutions			

#### Notes to Offerors:

- i. It is recommended that Offerors first complete Column B by entering the dollar amount the Offeror proposes to subcontract to each business category and subcategory.
- ii. To complete Column A, divide the dollar amount in Column B by the total offered price of the proposal (that is, total contract value).
- iii. To complete column C, divide the corresponding amount in Column B by the amount in the “Total Dollars to be Subcontracted” cell in Column B. [Note: The “Total Dollars to be Subcontracted” amount in Column C will always be that category divided by itself (100 percent if any dollars are subcontracted).]

#### 4. Commitment to the Small Business Program

(a) All Offerors shall briefly describe work that will be performed by small businesses. Proposals should also identify any work to be subcontracted that is considered —high technology. High Technology is defined as research and development efforts that are within or advance the state-of-the-art in technology discipline and are performed primarily by professional engineers, scientists, and highly skilled and trained technicians or specialists.

(b) If the subcontractor(s) is known, Offerors must connect the work to the subcontractor and specify the extent of commitment to use the subcontractor (s) (enforceable vs. non-enforceable commitments). (Small Business Offerors shall provide this information to the extent subcontracting opportunities exist in their approach to performing the requirement.)

(c) All Offerors shall provide information demonstrating the extent of commitment to utilize small business concerns and to support their development. Information provided should include a brief description of established or planned procedures and organizational structure for Small Business outreach, assistance, participation in the Mentor Protégé program, counseling, market research and Small Business identification, and relevant purchasing procedures. For Other than Small (Large) Business Offerors, this information should conform to applicable portions of the submitted Small Business Subcontracting Plan. #### **(F) PRICE -**

1. This procurement is exempt from the requirements of submission or certification of cost or pricing data. However, offeror is to provide a general breakdown of pricing (i.e. labor, equipment, materials, subcontracts, transportation, etc.) sufficient to determine price realism and reasonableness. Should significant subcontractors be involved, the pricing breakdown shall identify the pricing associated with each subcontractor. Breakout(s) should be submitted in a .xls compatible format.

2. Offeror shall identify and document all (if any) assumptions, conditions, and/or exceptions upon which the price is based. Any assumptions, conditions, and/or exceptions considered by the Government to be unacceptable may result in elimination for an award.

#### **(G) FORMAT -**

1. Proposals shall be clear and concise, and shall include sufficient detail for effective evaluation and substantiation of stated claims. The proposal shall not simply affirm, rephrase, or restate the Government's requirements, but rather shall provide convincing rationale to address how the offeror's product meets the requirements. Offerors shall assume that the Government has no prior knowledge of their products, facilities, or experience, and will base its evaluation only on the information presented in the offeror's proposal. Elaborate brochures or documentation, detailed artwork, or other superfluous embellishments are unnecessary and are not desired.

2. Signed offer(s) may be submitted electronically via e-mail to carol.a.burnside@nasa.gov (cc: gerald.l.norris@nasa.gov) or via facsimile to (228) 688-6024, by the date specified on page 1 in Block 8 of the SF 1449.
3. All information and all copies of offer must be submitted no later than the date and time specified on Page 1 in Block 8 of the SF 1449. Proposals that arrive after the prescribed date and time specified for receipt of proposals will be considered late and treated in accordance with FAR 52.212-1(f)(2).

**(H) VIETNAM ERA VETERANS' READJUSTMENT ACT OF 1972 (VEVRAA) -**

1. Federal contracting agencies are prohibited from obligating or expending funds to enter into a contract covered by the VEVRAA with a contractor from which a VETS-100 or VETS-100A Report was required with respect to the previous fiscal year if such contractor did not submit such report (31 U.S.C. 1354). The VEVRAA regulations generally apply to Government contracts entered into on or after December 1, 2003 in the amount of \$100,000 or more; contracts are not aggregated to reach the coverage threshold. Frequently Asked Questions (FAQs) regarding this topic may be found at <http://www.dol.gov/vets/vets-100.html>.
2. Contractors subject to reporting shall submit as verification of reporting compliance a copy of the confirmation notification received upon the successful submission of its VETS-100 and/or VETS-100A report(s).

**(I) QUESTIONS** - Questions regarding the solicitation and/or specifications are encouraged to ensure adequate understanding of the government's requirement. All offeror questions regarding subject solicitation must be submitted no later than 3pm in the afternoon local time (Central) on **August 23, 2012**. Questions submitted after this date/time will not be accepted. Questions will be accepted via e-mail only to: carol.a.burnside@nasa.gov (cc: gerald.l.norris@nasa.gov). Faxed or telephoned questions will not be accepted. In no event shall an offeror's failure to clarify the requirements of the solicitation constitute grounds for a protest before or after award or a claim after contract award.

**(J) PROPOSAL COSTS** - The Government will not pay any offeror for preparation of their proposal.

**(K) TECHNICAL EVALUATION CONTRACTOR SUPPORT -**

1. Offerors are hereby informed that a John C. Stennis Space Center (SSC) onsite Contractor will be providing technical assistance to the NASA proposal evaluation team, and, as such, will require access to offeror's proposal. The SSC Contractor **will not be** evaluating proposals, but will play an integral supporting role in the technical evaluation by providing technical input to be used by the NASA evaluation team. **The final technical evaluation results shall be the responsibility of the NASA Technical Evaluation Team.**
2. By submitting a proposal in response to this solicitation, offeror is acknowledging awareness of this fact. Offeror further acknowledges approval and acceptance of the technical assistance approach identified above and agrees that NASA may release to its service providers, their subcontractors, and their individual employees, sensitive information submitted during the course of this procurement.
3. **Submission of an offer in response to this Request for Proposal (RFP) provides consent for the Government to utilize the proposal in accordance with the technical evaluation procedures identified in paragraph K above.**

**52.212-2 EVALUATION - COMMERCIAL ITEMS (JAN 1999)**

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer, conforming to the solicitation, will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers: Technical Quality, Delivery Schedule, Past Performance, and Price. See the Addendum to this clause for specific evaluation procedures.

(b) Options. N/A

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

The following **ADDENDUM TO FAR 52.212-2** is incorporated:

**(A) COMPETITIVE NEGOTIATED PROCUREMENT USING QUALITATIVE CRITERIA**

This procurement is being conducted utilizing Best Value Selection (BVS), which seeks to make an award based on the best combination of price and qualitative merit (*e.g.* Technical Compliance, Past Performance, Schedule, and/or Price) of the proposals submitted and reduce the administrative burden on Offerors and the Government. BVS predefines the value characteristics which will serve as discriminators among proposals. BVS evaluation is based on the premise that, if all proposals are of approximately equal qualitative merit, award will be made to the Offeror with the lowest evaluated price (fixed-price contracts) or the lowest most probable cost (cost type contracts). However, the Government may consider awarding to an Offeror with higher qualitative merit if the difference in price is commensurate with added value. Conversely, the Government may consider making award to an Offeror whose quote has lower qualitative merit if the price (or cost) differential between it and other offers warrants doing so.

**(B) EVALUATION CRITERIA**

a. The award will be made where the offeror is determined to be responsible, and the proposal is responsive and offers the best value to the government. Best value will be determined based on an integrated assessment of each proposal in terms of Technical Quality, Past Performance, Delivery Schedule, Small Business Utilization, and Price. Therefore, subjective judgment by the government is implicit in the evaluation process. Technical Quality and Past Performance, respectively, are significantly more important than Delivery Schedule and Small Business Utilization. Technical Quality and Past Performance are of equal importance. All non-price factors, when combined, are significantly more important than Price. If offeror does not have relevant past performance history, the offeror may not be evaluated favorably or unfavorably on past performance and will be given a neutral rating as detailed in this plan. In addition, award may be made without conducting discussions.

b. Once all responses have been gathered, proposals will be qualitatively evaluated by team members using the below value characteristics. These value characteristics are performance-based and permit evaluation of the proposal, which provides better results for a reasonable marginal increase in price. All proposals will be judged against these value characteristics.

**(C) EVALUATION PROCESS**

The Government will evaluate proposals in two general steps:

**Step One** -- An initial evaluation will be performed to determine if all required information has been provided and the Offeror has presented a responsive proposal. Offeror may be contacted only for clarification purposes during the initial evaluation. Should a proposal be determined nonresponsive, the offeror shall be notified that their proposal has been rejected and the reasons therefore, and the proposal shall be excluded from further consideration.

Otherwise responsive proposals containing a significant variance in price from the government's estimate may be immediately removed from further consideration if there is no expectation that an award can be made at a fair and reasonable price, as it would be detrimental to the public interest to pay more than fair market price.

**Step Two** -- All responsive proposals will be evaluated against the specifications/statement of work and the value characteristics identified herein. Based on this evaluation, the Government has the option, depending on the specific circumstances of the proposals received, to utilize one of the following methods: **(1)** Make selection and award without discussions, (**preferred method**); or **(2)** after establishment of the competitive range, hold discussions with all finalists and afford each Offeror an opportunity to revise its proposal, and then make selection based upon an evaluation of the revised proposals.

Offerors are cautioned that omissions or an inaccurate or inadequate response to these evaluation factors may have a negative effect on your overall evaluation.

References other than those provided by the offeror may be contacted and their comments considered during the evaluation process. The information submitted may be verified by the Government through discussions with the references provided. While the Government may elect to consider data obtained from other sources, the burden of providing relevant references that the Government can readily contact rests with the Offeror.

**(D) VALUE CHARACTERISTICS**

Listed below are the value characteristics that will be utilized in the evaluation of each proposal. Each value characteristic is further defined to explain the rating that each offeror will receive. Documentation insufficient to make a definitive determination regarding these characteristics may negatively impact the score received.

a) **Technical Quality** - The government will evaluate the information provided by the offeror in response to this solicitation as well as to what extent proposal is in compliance with the solicitation requirements and how closely the proposed product meets the Government's requirements. Each offeror's proposed product's capabilities will be evaluated and assigned one of the following ratings:

<u>RATING</u>	<u>DEFINITION</u>	<u>STANDARD</u>
Outstanding	Substantially exceeds requirements	Offeror proposed a superior product to meet the requirements of the solicitation with specific, detailed, complete, and clear logic that fully demonstrates an in-depth understanding of the requirements. b) Delivery Schedule - The government will evaluate to what extent the offeror's proposed schedule meets the government's needs as specified in the solicitation as well as the reasonableness of the schedule proposed and the relative capability of the offeror to effectively meet the proposed schedule. Each offeror's proposed Delivery Schedule will be evaluated and assigned one of the following ratings:

<u>RATING</u>	<u>DEFINITION</u>	<u>STANDARD</u>
Outstanding	Substantially exceeds requirements	Offeror's proposed delivery schedule substantially exceeds the Government's desired/required delivery schedule per FAR 52.211-9. c) **Past Performance** - The government will evaluate past and present performance, giving consideration to the relevance of the work performed and the quality of performance indicated, to assess the relative capability of the offeror to effectively accomplish the requirements of this contract. For newly formed businesses having little or no company experience, the past performance of a predecessor firm, the company's principal owner(s) or corporate officer(s) may be considered. The lack of a performance record may result in an unknown performance risk assessment which will neither be used to the advantage or disadvantage of the Offeror. Each offeror's past performance will be evaluated and assigned one of the following ratings:

<u>RATING</u>	<u>DEFINITION</u>	<u>STANDARD</u>
Very High Level of Confidence	One or more significant strengths exist. No significant weaknesses exist.	The offeror's relevant past performance is of exceptional merit and is very highly pertinent to this acquisition; indicating exemplary product performance in a timely, efficient, and economical manner; very minor (if any) problems with no adverse effect on overall product performance. It clearly demonstrates the proposed valves' performance in an equivalent operating environment. Based on the offeror's products' performance record, there is a very high level of confidence that the offeror's proposed product will successfully meet the required standards.
High Level of Confidence	One or more significant strengths exist. Strengths outbalance any weakness.	The offeror's relevant past performance is highly pertinent to this acquisition; demonstrating very effective product performance that would be fully responsive to contract requirements with contract requirements accomplished in a timely, efficient, and economical manner for the most part with only minor problems with little identifiable effect on overall product performance. It fully demonstrates the proposed valves' performance in a highly comparable operating environment. Based on the offeror's products' performance record, there is a high level of confidence that the offeror's proposed product will successfully meet the required standards.
Moderate Level of Confidence	There may be strengths or weaknesses or both.	The offeror's relevant past performance is pertinent to this acquisition, and it demonstrates effective product performance; fully responsive to contract requirements; reportable problems, but with little identifiable effect on overall product performance. It demonstrates the proposed valves' performance in a somewhat comparable operating environment. Based on the offeror's products' performance record, there is a moderate level of confidence that the offeror's proposed product will successfully meet the required standards.
Neutral	No record exists or the contractor has no past performance to report.	
Low Level of Confidence	One or more weaknesses exist. Weaknesses outbalance strengths.	The offeror's relevant past performance is at least somewhat pertinent to this acquisition, and its products meet or slightly exceed minimum acceptable standards; adequate results; reportable problems with identifiable, but not substantial, effects on overall product performance. It does not demonstrate the proposed valves' performance in a somewhat comparable operating environment. Based on the offeror's products' performance record, there is a low level of confidence that the offeror's proposed product will successfully meet the required standards. Changes to the offeror's existing processes may be necessary in order to achieve contract requirements.
Very Low Level of Confidence	One or more deficiencies or significant weaknesses exist.	The offeror's relevant past performance does not meet minimum acceptable standards in one or more product performance areas; remedial action required in one or more product performance areas; problems in one or more product performance areas which adversely affect overall product performance. It fails to demonstrate the proposed valves' performance in a marginally comparable operating environment. Based on the offeror's products' performance record, there is a very low level of confidence that the offeror's proposed product will successfully meet the required standards.

d) Small Business Utilization - The evaluation of Small Business Subcontracting and Commitment to the Small Business Program applies to all Offerors, except that Small Businesses are not required to submit a Small Business Subcontracting Plan.

(1) Small Business Subcontracting

(a) The Small Business Subcontracting Plan will be evaluated in terms of the Offeror's proposed subcontracting goals (overall subcontracting goals and individual subcontracting goals by small business category) in comparison to the Contracting Officers assessment of the appropriate subcontracting goals for this procurement. The Offeror's Small Business Subcontracting Plan will also be evaluated in terms of meeting the requirements of FAR 19.704, Subcontracting Plan Requirements. The evaluation of the Small Business Subcontracting Plan will be on the basis of total contract value.

(b) Small businesses are not required to submit subcontracting plans. NASA will only evaluate the amount of work proposed to be performed by the small business prime and any small business at the first tier subcontract level. The proposed amount of work to be done by the prime small business and first tier small business subcontractors will be evaluated against the Contracting Officer's assessment of the overall subcontracting goal for this procurement. Individual subcontracting goals by small business categories will not be evaluated for small business primes and their first tier subcontractors.

(2) Commitment to Small Businesses

(a) NASA will evaluate the extent to which any work performed by a small business subcontractor(s) is identified as "high technology". NASA also will evaluate the extent of commitment to use the subcontractor(s) (enforceable vs. non-enforceable commitments).

(b) NASA will evaluate the extent to which the identity of the small business subcontractor is specified in the proposal as well as the extent of the commitment to use small businesses. (For small business Offerors, NASA will evaluate this only if subcontracting opportunities exist.)

(c) NASA will evaluate the Offeror's established or planned procedures and organizational structure for small business outreach, assistance, participation in the Mentor Protégé program, counseling, market research and small business identification, and relevant purchasing procedures. (For large businesses Offerors, this information should conform to its submitted Small Business Subcontracting Plan. For small business Offerors, NASA will evaluate this only if subcontracting opportunities exist.)

(3) Evaluation - The evaluation team will assign one of the following ratings for Small Business Utilization. A higher level of utilization will result in a "High" rating which is more favorable

<b>RATING</b>	<b>DEFINITION</b>	<b>STANDARD</b>
HIGH	Proposal identifies a high level of Utilization of Small Business Concerns.	Provided information in their proposal which indicates High Utilization of Small Business Concerns. Utilization of Small Businesses in most areas is consistent with NASA goals. Includes more than one enforceable commitment to small businesses sub-contractor.
MEDIUM	Proposal identifies moderate level of Utilization of Small Business Concerns.	Provided information in their proposal which indicates moderate Utilization of Small Business Concerns. Utilization of Small Businesses in some areas is consistent with NASA goals. Includes commitments, which are not enforceable, to small business sub contractors.
LOW	Proposal identifies minimal or no Utilization of Small Business Concerns.	Provided little or no information in their proposal to indicate a reasonable approach for Utilization of Small Business Concerns. Information provided shows little or no Utilization of Small Businesses consistent with NASA goals. No sub-contractor commitments (enforceable or unenforceable) were identified.

e) **Price** - The government will evaluate offeror's proposed price for reasonableness and realism in accordance with FAR 15.4 and for determining best value to the Government. Price will be evaluated via price analysis. The analytical techniques and procedures described in FAR 15.404 may be used, singularly or in combination with others, to ensure the final price is fair and reasonable.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or

commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; **and**

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; **and**

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).
